Reviews

These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

B.: On combined external and internal version. Amer. Journal of Obstetrics, 1873, vi, pp. 78-82. Wright, M. B.: See Parvin, Trans. American Gynecological Society, 1879. iv, PP-433 437 The Corpus Luteum. One of the most important early contributions to the scientific side of obstetrics in America was the work of Joh C. Dalton, Jr., upon the corpus luteum. His first work upon the subject appeared in 1851 as a monograph of 100 pages, which was still further elaborated in a communication made to the American Gynecological Society in 1877. In these the author attempted to prove that there is a marked difference in the structure of the corpus luteum of menstruation and that of pregnancy, and although his conclusions are no longer regarded as correct, his work deserves mention as a valuable study of the subject. One of the most productive and industrious obstetricians within the period under consideration, was Dr. James D. Trask, of Astoria, New York (1821-1883). His chief claim to fame rests upon the preparation of monographs upon rupture of the uterus and placenta praevia. Upon the former subject he made two communications in 1848 and 1856, basing the first upon 300 and the second upon 417 cases, occurring in his own practice and collected from the literature. The work was a model of industry, and was likewise of very considerable interest in that the author urged laparotomy as the appropriate treatment in-all classes in which the child had escaped...
