As outspoken in his day as Richard Dawkins or Christopher Hitchens are today, ROBERT GREEN INGERSOLL (1833-1899) was a notorious radical whose uncompromising views on religion and slavery (they were bad, in his opinion), womens suffrage (a good idea, he believed), and other contentious matters of his era made him a wildly popular orator and critic of American culture and public life. Legendary as a speaker-he memorized his speeches and could talk for hours without notes-and as a proponent of freethought, Ingersoll is an American original whose words still ring with truth and power today. His most important works are gathered in this 12-volume collected edition, first published posthumously in 1901. Volume VIII features numerous interviews with Ingersoll by various newspapers, magazines, and other publications on such topics as: the Bible and a future life politics and religion miracles and immortality Mr. Beecher, Moses and the Negro freethought civil rights free trade and Christianity blasphemy and much more This item ships from multiple locations.
