Sprache: Deutsch, Abstract: As the modern world growing fast,
the new technologies has been developed with fast rate and the
techniques of sending and receiving and displaying the secret
information especially in public society or society places has
faced many problems or challenges and has received more
attention toward these modes of communication. Therefore,
different types or methods have been proposed so far for
hiding secret information within different types of cover
medium. In this paper, the information is hiding inside an
image file which acts as cover medium for secret information.
There are two ways or methods for this process i.e. Encryption
and decryption. There are two algorithms have been proposed
for embedding or extracting the secret or hidden information
which used the Steganography technique which is again the
most popular technique now a days for hiding information
within different cover medium. In this paper, we are using
image file as a cover medium. 12 pp. Deutsch.
